

## Goutex feeding

- ◆ Reverses the lesions of gout
- ◆ Improves survival rate

Dr. Gatne M. M. & Dr. Suryavanshi V. S. / Effect of Goutex against induced Gout in Chicken – Year 2006.  
Deptt. Of Pharmacology & Toxicology, Bombay Veterinary College, Mumbai 400 012.

### EXTENSIVE FARM TRIALS on 1,05,990 chicks ( April – Sept 2006 )

**Goutex** – in drinking water started when Gout identified & mortality started

Sr. No.	Batch Size	Mortality	Av. Days for achieving 1.5 Kg body weight.
1	17,603	2%	35
2	36,437	2 – 4%	36.71
3	38,031	4 – 8%	37.21+
4	12,396	8 – 15%	39
5	1,524	+15%	41
	1,05,990		

Dr. Narsapur V. S - 2006.

**Feed 10 ml/100 chicks/day through drinking water :**

#### Key Benefits :

- ◆ Acidifies urine and helps to keep kidney stones dissolved.
- ◆ Preserves functional renal mass of the affected area.
- ◆ Improves weight gain.
- ◆ Mortality declines in 24 -48 hours & Stops 4- 9 days.

#### Administration in drinking water :

- ◆ Broilers : 5 -10 ml for 100 birds daily from 2nd week through 3rd week (10-15 days) of chick's life
- ◆ Layers : 20 ml for 100 birds daily ( if gout symptoms identified)
