

# Maxii Guard

## A COMPLETE DISINFECTANT FOR POULTRY

Virucidal · Mycoplasmicidal · Bactericidal · Fungicidal

BROAD SPECTRUM  
SAFE AND BIO DEGRADABLE

PROVIDES 100% SECURITY AGAINST H5 N1/H1 N1 VIRUS

# Maxii Guard

## A WIDE VARIETY OF APPLICATIONS

Due to its broad spectrum activity and safety of use, Maxii Guard is recommended in the following areas:

### RECOMMENDED USAGE

- Poultry Farming: Breeder farms, Layers, Broilers, Hatcheries
- Dairy Farms
- Others: Horse stables, rabbit farms, kennels, catteries, camel stables ... Pig - sty

#### Routine Disinfection

Preventive use without any specific disease spray 1 litre of Maxii Guard diluted in 200 litres of water to cover 600 square meters area.

#### Biosecurity Uses

Preventive use without any specific disease 1 litre of Maxii Guard diluted in 200 litres of water. in Foot bath and wheel bath etc.

#### Terminal Disinfection

Dilute 2.5 litres of Maxii Guard in 2.5 litres of water. Use this solution of 5 litres for 1000 cubic meters.

#### PACKING

- 1 litre Bottles and
- 5 litre Jars
- 25 litre can

Manufactured by:

# Maxii Guard

Proven Efficacy  
against all  
major Pathogens

### WHAT IS Maxii Guard?

Maxii Guard is used effectively as disinfectant against 4 major pathogen families, viz. virus, mycoplasma, bacteria and fungi, even in the presence of organic materials and hard water.

### Maxii Guard has the following composition:

Alkyldimethylammonium chloride  
Octyldecyldimethylammonium chloride  
Didoctyldimethylammonium chloride  
Didecyldimethylammonium chloride  
Glutaraldehyde  
Pine oil  
Terpineol

### HOW IT WORKS ?

#### Quaternary ammonium

Effective on coated viruses, Gram+ve and Gram-ve bacteria, bacterial spores, mycoplasma and fungi

#### Glutaraldehyde

Broad spectrum efficacy including Gram+ve and Gram-ve bacteria, bacterial spores and naked viruses (parvovirus, enterovirus)

#### A Synergistic Action

The association of quaternary ammoniums and glutaraldehyde allows to extend the respective spectrum of each of the components and to reach all bacterial, fungal and viral targets even in the presence of interfering organic matters.

### FEATURES

- \* Very strong wetting power
- \* High Stability
- \* Good Chemodegradability
- \* Active in hard water and in presence of organic matter

### BENEFITS

- \* Greater penetration and higher efficacy
- \* Available for long periods for action
- \* Safety for consumers and environment
- \* Excellent results in all types of Water
- \* Safe for animals

# Maxii Guard

The Ideal  
DISINFECTANT

### EFFICACY

**Broad Spectrum Activity :** Virucidal - Mycoplasmicidal - Bactericidal - Fungicidal

**Strong Penetration Power :** Wetting and detergent because of a high concentration of tension-active agents.

### SAFETY

Non-toxic for animals. **Contains No phenols and No formaldehyde.** Non irritating at the recommended dilution rates. Does not attack the mucous membranes of the skin.

**Convenient To Use :** Can be used with all systems:-Spraying, dipping etc.

**Maxii Guard** can be used after any detergent after rinsing of surfaces

**Maxii Guard** can be applied before the use of insecticides of pyrethrinoids family

*No corrosive action: Safe for equipment and building*
